Sherry Camhy has published *Robert Beverly Hale Lecture Notes*. The hardcover volume contains one hundred unedited pages from the sketchbook Camhy created as Hale's afternoon class monitor in 1980. The pages include detailed notations of Hale's anatomy lectures, her own studies of his demonstration diagrams, and additional anatomy information.

"Robert Beverly Hale's lectures were not just about anatomy. They were interspersed with his insights into art and life, which he expressed through humorous asides and inspiring recitations of poetry," Camhy explains. Also included are snapshots of Hale and his drawings. The book is for anyone interested in understanding more about one of the Art Students League's most influential anatomists. For further information, contact sherrycamhy@gmail.com.

I am very excited about being able to make my sketchbook into a book to share something of the experience of knowing him, his insights and the valuable knowledge Mr. Hale passed on to us when he was teaching at ASL. He was really special. I hope you will enjoy the book as much as I loved putting it together for you.

The book comes in two forms. Since it is actually composed of photographs of my handwritten notes, the publication production is costly. Frankly, I wish I could just give it away but?

The large size (11- 1/2" x 15) is a beautiful hardcover edition of only 200 limited, numbered, signed copies - \$300 each.

A smaller (8 3/4 x 11 1/4) hardcover version edition is \$150 each. (unnumbered unsigned) well, actually I would be quite pleased to sign it for you.

If you would like to see the books first you are welcome to stop by any of my classes at ASL on the "M" floor on

Tuesday evenings 7-9:30pm

Saturday's 9:30-4:30

If you can't make it at those times to see the book and you are interested in seeing a sample page let me know and I will send you one by email.

If you want to purchase one or the other please send a check in the appropriate amount (there is no charge for shipping) to
